TIP! (Purple Color Sign) What is "ETC" (Electronic Toll Collection) System?

If you use toll roads or expressways in Japan, you may have seen "ETC" lanes at various toll gates. The "ETC" system is able to collect toll fees without stopping completely at toll gates, mainly to reduce the traffic. There are three integral parts to the ETC system: The ETC card, the car transmitter and the toll gates ETC antenna. Yes, this means unless you own the card and transmitter, you cannot take this service - so use the "regular" or "non-ETC" lanes at the toll gates (some gates offers both "ETC" and "regular" services; then the sign has two colors - "ETC" / purple sign, and "regular" / green sign - on one board). If you'd like to know about "ETC", visit JH's web site.

www.jhnet.go.jp/english_new/etc_top.html

(If you enter "ETC ONLY" gate by accident, use the intercom to call toll gate personnel)
