

A faster, easier way for parents to re-register their student(s) in DoDEA schools!

DoDEA Online Registration for Students (DORS) Re-Registration

Beginning March 2019, DoDEA parents are able to use DORS to re-register their student(s) for the coming 2019-2020 school year. The DORS re-registration portal can be used to provide next school year plans as well as digitally update family and emergency contact information.

The DORS re-registration portal:

- Is an intelligent, secure, web-based DoDEA student registration system
- Eliminates manual forms and makes it easy for parents to re-register their child for school
- Allows parents to update their child’s information anytime, anywhere
- Provides online global access to families via computers, tablets, and mobile devices

Visit www.dodea.edu/DORS for more information.

Benefits of the NEW DoDEA Online Registration for Students Process

Product Features	DORS	Benefits
Web-based registration process	✓	Families can complete registration forms from any location any time of day.
Upload supporting document	✓	Families can upload supporting registration documents from any location any time of day.
Includes all necessary registration fields	✓	Families can complete all necessary forms and fields in one central system. This limits additional forms and the amount of data registrars manually enter.
Field level dependency	✓	Families will complete only the necessary fields relevant to their registration situation; e.g. families whose primary home language is not English will be prompted to complete additional information.
Data validation process	✓	Registrars can validate appropriate data is being transferred to the Student Information System, resulting in fewer data errors.
Automated data transfers to Aspen SIS	✓	Registrars no longer need to manually type enrollment data within the SIS. This provides a smoother and faster registration process for registrars.
Mobile friendly	✓	Families can easily access the registration site on mobile devices.
Online registration update process	✓	Families can update contact information; e.g. names, addresses, emails, phone numbers, etc.
